■ - Indicates where a flag Administration suffered no detentions within the particular PSC region, but did not meet the relevant minimum requirement of inspections/arrivals, as set by the PSC authorities, to be included in an MOU white list or the Qualship 21 program. In order to be identified in this way with respect to the Paris and Tokyo MOU white lists, a flag must have undergone at least one inspection in the previous three years. With respect to the Qualship 21 program, a flag must have made at least three distinct arrivals in each of the previous three years. This is in alignment with the way in which the PSC authorities present this information. For the target list criteria, this denotes a flag Administration which has received 2 points (as opposed to 7) according to the USCG target list methodology.

FAROE ISLANDS  
SHIP REGISTRY

WHY:

WE WANT TO DIVERSIFY OUR ECONOMY!  
For centuries the Faroe Islands have been a nation of seafarers and the strengthening of the shipping business is to be seen as a natural addition and supplement to the traditional fisheries and fish farming.

HOW:

By enacting laws that strengthen the financial competitiveness of Faroese shipping business as well as it attracts foreign shipowners to register their ships and companies in the Faroes.

"ERIK THUN AB HAS REGISTERED SEVERAL VESSELS IN THE FAROE ISLANDS SHIP REGISTRY SINCE 2010. THE EXCELLENT 24/7 SERVICE, FLEXIBLE ADMINISTRATION AND COMPETENT STAFF ARE SOME OF THE REASONS THAT WE WOULD RECOMMEND FAS TO ANY SHIPOWNER."

Johan Källsson  
Managing director, Thunbolagen

## WE HAVE:

- A deeply rooted maritime culture – where shipping occupies 10% of the population and produces 20% of the GDP
- Flexible and highly qualified multilingual workforce – ashore and at sea
- Scandinavian / European legislation
- Tax code accepted on OECD / G20 “white list”

# Tonnage Tax System

The Faroese TTS is built on the same principles as similar systems in the Nordic countries and the EU, only with fewer restrictions.

- No tonnage ratio with regard to the number of Faroese-flagged vessels.
- Enrolment binding for 3 years.
- No ownership requirements – owned and chartered tonnage may be registered (ships from 100 GT).
- Low rates – no indexation
- No taxation on the profit resulting from the sale of a vessel in the system to a company not in the system.
- Activities closely linked to ship operations may also be included in TTS.
